

singular audio

Tubedrive mastering tech specs:

THD: 0.2% to >85%

Noise : <95dB below maximum output level at typical settings

Frequency response (triode): 30Hz - 20kHz \pm 1dB

Frequency response (pentode): 40Hz - 20kHz \pm 1dB

Max gain (clean): 25dB

Max gain (overdriven): 45dB

Gain switch: -10dB, 0dB and +12dB input level

Potentiometer indents: 41 steps

Bypass : relay switched balanced bypass

Tolerance between channels at 100% wet : \pm 0.5dB at typical settings, tolerance decreases with lower mix setting

Power consumption:

+16v = 200mA (per slot)

- 16v = 150mA (per slot)

Tube complement per slot: 1 x 6J2P (6AS6 pin compatible), 1 x 6J32P (EF86 pin compatible)

Weight : 575 grams
