

# singular audio

## **Tubedrive mastering tech specs:**

THD: 0.2% to >85%

Noise : <95dB below maximum output level at typical settings

Frequency response (triode): 30Hz - 20kHz  $\pm$ 1dB

Frequency response (pentode): 40Hz - 20kHz  $\pm$ 1dB

Max gain (clean): 25dB

Max gain (overdriven): 45dB

Gain switch: -10dB, 0dB and +12dB input level

Potentiometer indents: 41 steps

Bypass : relay switched balanced bypass

Tolerance between channels at 100% wet :  $\pm$ 0.5dB at typical settings, tolerance decreases with lower mix setting

Power consumption:

+16v = 95mA (per slot)

- 16v = 90mA (per slot)

Tube complement : 2 x 6J2P (6AS6 pin compatible)

Plate voltage : 230VDC
